

JaHanna Kurtz, MS Sports Administration:

JaHanna is married, and mother to one. Although her background is in athletics, she has found a passion for educating the world and community on the beauty of diversity through her own experiences. It was not until she and her husband received their son's post-birth diagnosis, of Down Syndrome, that she quickly learned the importance of advocating and education. Whether it was coaching or playing sports, she always knew her calling was to leave a lasting impression on those she encountered. The best way to do that, is joining a group of women looking to change the world! It was through her son's therapeutic community where she met CEO Jessica, and her life changed forever. She looks forward to working with this Board of Directors, enhancing the lives of others, and sharing her son Roman with the world.
